# THE RACE

## *What to know for Race Day*

- Runners will not be allowed to warm up in front of the starting line at any time.
- Clothing left in Hopkinton will be donated to charity.
- For safety reasons, animals, strollers, in-line skates, skateboards, and like vehicles of any kind are not permitted.
- There are additional toilets in Hopkinton. Please use these units and NOT private property. Trespassing is illegal and the law will be strictly enforced. Violators are subject to immediate disqualification and possible action by local law enforcement officials.

### Timing & Scoring

If you do not complete the entire racecourse before 5:30 p.m. (the time of day at which official race timing concludes, approximately 6 hours after the last official starter crosses the start line) then you will not be recorded in official race results. The timing tag identifies your bib number and should not be worn by any other entrant.

Runners still out on the course when officials determine that it is time to reopen the roads (approximately a 13:43 minute-per-mile pace) will be instructed to move to the right side of the road. Once roads begin to reopen to vehicular traffic, course infrastructure (such as timing systems, course clocks, medical stations, and water stations) will all begin to close. Clocks will be displayed along the course showing the time of day and a reminder of the 5:30 p.m. finish line closure. Clocks will be placed at the halfway point and near the 25K, 30K, 20 mile, 21 mile, and 35K markers. There will also be a clock at the finish line. Runners on the course after this time accept that they will be on their own and should plan accordingly. The B.A.A. will have a team of cyclists in the rear of the pack to assist runners who are at or slower than 13:43-minute-per-mile pace.

Runners unable to finish the race may stop for assistance at medical stations along the course. Sweep buses pick up runners at medical station with drop-off at the Finish Area medical tent.

26 medical stations will be located along the course staffed with a variety of medical professionals. Please note that participants are solely responsible for any medical expenses incurred from participating in the Boston Marathon, including ambulance transfers and hospital stays.

### At The Finish Line, Volunteers Will Direct You To:

- Medical support: Two complete and staffed medical tent facilities will be at the finish. The B.A.A. is not responsible for race-related injuries and athletes are responsible for individual expenses incurred. Only runners needing medical attention will be allowed to enter the medical areas.
- Poland Spring Water, finisher medals, Heatsheet® blankets, Gatorade Endurance Formula, food bags, and additional products will be provided.

## Family Meeting Area

The Family Meeting Area is located on Stuart Street between Berkeley Street and Clarendon Street. Family, friends, and athletes are urged to make plans prior to race day on where to reunite post-race.

- Specific meeting areas are located between Stuart Street and Columbus Avenue by letter of participants' last name.
- Collecting your medal, fluids, and refreshments may take considerable time. Please advise your friends and family accordingly. Due to road closures, vehicles are not allowed close to the finish area.

## Medical Information

The Boston Marathon Medical Team is here to support you. We have multi-disciplinary medical teams at the start, on the course, and at the finish. Please help us, help you, by adding relevant medical history information to the back of your bib. This is the quickest way to ensure specific medical needs are being met should you present in a medical station. Please also include emergency contact information. If you have a plan to meet loved ones at the end of the race, having their information on the back of the bib will help us communicate any changes in plans should you pass through the medical program.

## Services

### MEDICAL SERVICES - THE START IN HOPKINTON

The Start Area will have two medical tents that can offer assistance with most last-minute medical needs. Band-Aids, Vaseline, a pre-race stretch, or just a word of encouragement can be offered by our medical team. Before arriving to the Athletes' Village, take some time to complete the emergency contact information on the back of your bib. Information such as allergies, medical conditions, and two emergency contact names and cell numbers should be included. If possible, one of the emergency cell numbers should be that of someone waiting for you near the finish.

### MEDICAL SERVICES - ON-COURSE

The Boston Athletic Association provides 26 medical stations strategically located along the course. Each tent is staffed with a variety of medical professionals, offering basic first aid to those in need. Course medical coverage is supported with ambulances and EMS bike teams provided by Boston EMS, Coastal Ambulance, Cataldo, Brewster and Armstrong Ambulances Companies.

### SWEEP MEDICAL BUS PROGRAM

Medical sweep buses are positioned along the course at aid stations. These buses are available to runners who cannot finish the race and/or may have a minor medical problem. Each bus is staffed by medical volunteers who are available to provide first aid. A runner may choose to rest on the bus while it is parked at a first aid station. However, once the bus begins to move, the runner is no longer an official entrant, and they will not be given an official finish time. Once on the bus, the runner may not re-enter the course to complete the marathon. Medical Sweep buses are required to travel from aid station to aid station before a secondary bus will travel directly to the finish area in Boston. Once the runner arrives in Boston (drop off behind our Medical Tent on Dartmouth Street) the runner has the option of seeking care in our medical tents or entering Boylston Street for water, food, and other support systems.

### MEDICAL SERVICES - FINISH LINE/FINISH AREA

Medical teams are located at the immediate finish line and the main medical tent, which is located on Dartmouth Street. A second tent/facility is located on St. James Street and Berkeley Street. Additional members of the medical team are staffed along recovery zones leading to the Family Meeting Area. Medical personnel can be identified by their medical volunteer jackets. If you are injured or feeling ill, please seek out a member of the medical team for support.

## Services (cont'd)

### AFTER YOU CROSS THE FINISH LINE

During any prolonged physical activity, the body's blood supply is usually redirected to the extremities and away from internal organs. Runners should continue to walk after finishing the race. Standing still or stopping can cause nausea, dizziness, and weakness – normally resulting with a runner passing out. Walking will help redirect your blood to vital organs, so it is advisable to keep moving. In any event, if you think you need help, ask one of our medical personnel for assistance.

### CARDIOPULMONARY RESUSCITATION

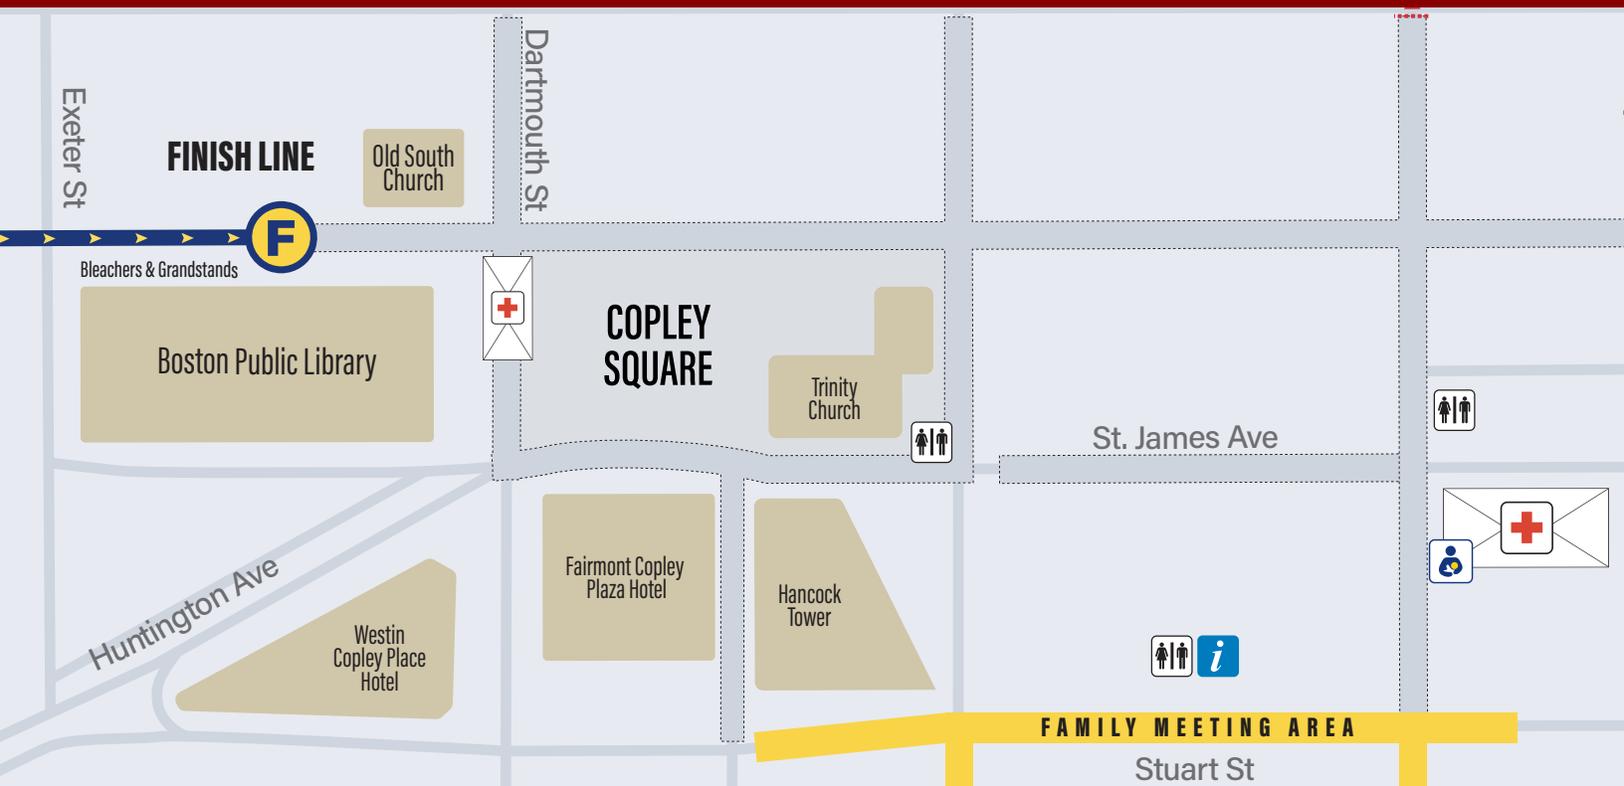

Together with the American Red Cross and the American Heart Association, the Boston Athletic Association is creating a video demonstrating the use of "hands only" CPR. We will be also hosting a CPR Demonstration at the Boston Marathon Expo. Come by, learn how to perform CPR and how you can help a fellow runner. Watch the video on the importance of knowing CPR at <http://bstnmar.org/CPRVideo>.

### LACTATION & MEDICAL DEVICES

The B.A.A. is dedicated to enhancing the participant experience over race weekend for lactating runners and individuals who require the use of medical devices at the Boston Marathon. Visit our designated Lactation Tent and a Medical Device Trailer for runners at the start and the B.A.A. will transport personal breast pumps and medical devices from the start to the finish for participants to pick up post-race. There will also be a designated Lactation Station in the Finish Area for participants to use post-race. For any runner, volunteer, or individual visiting the Boston Marathon Expo over race weekend, the Hynes Convention Center offers a Mamava Lactation Pod.

### MEDICAL EXPENSES

Participants are solely responsible for any medical expenses incurred from preparing and participating in the Boston Marathon. These expenses include ambulance transfers to area hospitals during or after the marathon, hospital admissions, lab work, and any follow up care needed to address your injury or illness.
